

FF: before capitalism, there was feudalism
* colonialism manages profit in capitalism

Image of Africa

- Chinua

* example of contrapuntal reading which ^{undoes /} undermined ^{the} Eurocentric bias of ^{English} a novel - Heart of Darkness - by Joseph Conrad.

* when France, Britain & Britain conquered huge parts of 'Global South' primarily for profit. 'Capitalism' was ^{its} the cause

* Capitalism → mode of economy in which 'commodity' is used

(i) A commodity is something that has -

a) 'use value'

b) 'exchange value'

abstract socially
labour necessary
time

reason that commodities can be exchanged is by

(ii) ~~socially~~ increase of market is required

(iii) cheap labour & captive market in a colonized State helps capitalism

→ no industry, ^{involved,}

* 'mercantile' phase of capitalism ^{epics} ^{rich}

→ 'industrial' → 2nd phase of capitalism

→ feeding to ~~into~~ industry, the raw material

* Africa was colonized as industrial capital

* 1st form of European colonialism for capitalism
^{& Portugal} Spain colonizing Inca (South America) for gold (wrong idea to become rich)

* industrial capital needs → (i) cost price managing ^{raw material} ^{labour}
(ii) increasing the market size

Africa is called 'dark' continent as Europeans did not know about it.

Now, colonialism starting in Africa

* ~~Belgium~~ Belgium king → Leopold II → colonizer
Congo for himself (NOT BELGIUM)

② ^{source} ~~reason~~ items for which colonized →

(i) ivory → elephant tusks

(ii) rubber

* In 1884-85, in Berlin, Prussia, a conference was organized because of the news of Leopold II colonizing as other European countries wanted to do the same
'Scramble for Africa'
hurry, run rush to grab

result → division of Africa in a span of a month (in 'neatly straight lines') among European powers

★ Story → originally from England → Belgium → Congo
from his perspective → Marlow is hired by a Belgian trading company → to find someone → a European → Kurtz: finest agents working for that company (procuring ivory) → problem: there is no contact with Kurtz → find him → tries to bring him back → dies

* Heart of Darkness → colonial discourse (China Act anti-colonialism (general view))

* idea for colonizers → civilizing 'mission' (not merely profit)

to hide the underlying dark truth

something used

* foil: to produce a contrast to the main thing

* 'othering' is a psychological process through which you project all that you consider negative to your self image ~~is projected out~~ on to something or someone outside

* othering creates other → which acts as a foil to self

* mutually exclusive binary division between self and foil

① why & ② How is other created? (self → Europe)
Ans)

Dorian Gray → self → Europe
other → picture → Africa

psychological need
why → self often find itself too anxious with itself
so projecting others (Africa as savage barbarians)

Concept of commonality → if there exists a common between self & other, the projection loses its definition (binary)

Page 3 → a burst of yellows... foliage

Page 4 → pate → head
wool of pate → hair

* Gauguin, Picasso → cubism

Summary

- * provides a 'contempuntal reading' of Conrad's Heart of Darkness.
- * Why?
 - i) HOD → ^{reveals} is a racist view → author already assumes (Eurocentric) ^{stage of mind} that they are civilized & Africa → barbarians
 - ii) ~~the~~ psychological → deep psychological need (through othering)
 - iii) this othering ^{process} breaks down whenever in the novel there are characters who go out of self & other binary. → they reveal underlying kinship b/w self & other → problem for self
 - iv) European civilization hides that they were taking from African ~~culture~~ ^{eg} masks from Fang people)
